

# CARNIVAL - MAGIC PAPER

Step one: Color your mask with oil pastels

Step two: Cover your mask with black ink with a water base (like gouache, nankin or acrylic. If you are using nankin or gouache, add some drops of detergent)

Step three: Wait for it to dry completely, use a stick or something pointy to draw in your mask. You can use it as a welcome back activity, and ask your students to use that mask to present themselves.
